SUBJECT: ICAM Industry Days

TO: Attendee

1. You are cordially invited to attend the Sixth Annual ICAM Industry Days to be held 17-20 January 1982, at the Marriott New Orleans Hotel, New Orleans, Louisiana.

2. The ICAM Program is moving into a new phase of activity. In the last year, we have been hard at work re-examining the requirements, strategy and technical content of the ICAM Program. The results of this analysis will be displayed at Industry Days. In addition, we have begun implementation of the Manufacturing Control/Material Management (MC/MM) system at Northrop's Mariposa, California plant. A second installation of MC/MM is beginning at Williams Research Company's Ogden, Utah plant. Three contractors have been awarded contracts for preliminary design of the sheet metal center demonstration site. Further, the Technology Modernization Program has grown significantly in the past year, as has ICAM's role in this new Air Force initiative. All of these efforts, plus the remaining ICAM projects, will be reviewed at Industry Days. Therefore, we believe your attendance will provide you with deeper understanding of the status and future course of the ICAM Program and its projects.

3. A preliminary agenda, registration form, information sheet and hotel reservation card are attached for your information and convenience. Your earliest return of the registration form to the address shown is requested. The hotel reservation card should be mailed directly to the hotel. All inquiries concerning administrative arrangements for the meeting should be directed to the meeting coordinator identified on the registration form. Questions concerning the technical program should be directed to Major William McCulloch, AFWAL/MLTC, at 513/255-6976.

4. We look forward to seeing you in New Orleans. After Industry Days, we would appreciate any comments you may offer on the ICAM Program.
